

The ULTIMATE solution for light and flexible insulation slabs

ULTIMATE U TECH Slab MT 3.1 is the light alternative to standard industry slabs. The ULTIMATE slab is designed for combining standard thermal and acoustic insulation with light weight for surface temperatures of up to 400 °C - making the installation fast, efficient and as easy as possible. Compared to U TECH Slab MT 3.0, the version 3.1 has improved rigidity and is less flexible.

U TECH Slab 3.1 for usage when in contact with austenitic steel structures. On request with black (V2) or yellow glass veil facing (V1) and reinforced aluminium facing (Alu1).

Thermal Efficiency Indicator

THERMAL INSULATION

Standard thermal performance for service temperatures up to 400 °C with up to 35 % better efficiency than standard solutions

FAST INSTALLATION

Flexibility, lightweight and compressibility helps to handle and install the product easier and faster

IMPROVED LOGISTICS

Transport and storage savings with up to 80 % more material per pallet than standard solutions

FIRE REACTION

Non-combustible, Euroclass A1 for effective fire protection on industry sites

SOUND ABSORPTION

Up to 95 % of sound energy absorbed due to optimal longitudinal air flow resistance and uniform porosity values

LIGHTWEIGHT

Lightweight solution with up to 50 % weight savings compared to standard insulation solutions
